WHAT IS CLAIMED IS:

- 1 1. A mounting method, comprising steps of:
- 2 providing a wiring board provided with a first
- 3 terminal;
- 4 providing a connector provided with a second
- 5 terminal;
- 6 providing a camera module provided with a third
- 7 terminal;
- 8 soldering the first terminal and the second terminal to
- 9 mount the connector on the wiring board; and
- mounting the camera module on the connector to
- 11 electrically connect the second terminal with the third
- 12 terminal.
- 1 2. The mounting method as set forth in claim 1, wherein
- the soldering step is performed in a non-manual manner.
- 1 3. The mounting method as set forth in claim 2, wherein
- 2 the soldering step is performed with a reflowing process.
- 1 4. The mounting method as set forth in claim 1, wherein
- 2 the wiring board is a printed wiring board.
- 1 5. The mounting method as set forth in claim 1, wherein
- the wiring board is a flexible printed board.
- 1 6. The mounting method as set forth in claim 1, wherein
- the camera module is detachably mounted on the connector.
